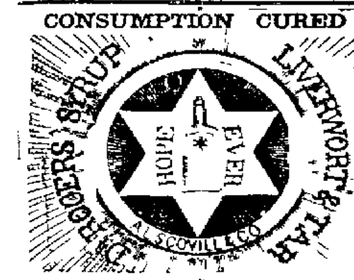
Mr. Elisha Field, Boston, is agent for these papers Advertisements left with him will be immediately forwarded

CONSUMPTION CURED



CANCHALAGUA;

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

READ! READ!!

This medicine is just what it is declared to be above A remedy for the complete cure of all those affections of the Throat and Lungs which, if neglected, always end in CONSUMPTION It is not a worthless catch penny article made just to sell like many of the common nostrums of the day, but it is a strictly scientific Preparation—the original recipe having been furnished by an eminent Physician (the late Prof Rogers) and that still further improved by one of the present proprietors, who is himself a regularly educated Physician and a graduate of the University of Pennsylvania It is composed of the choicest articles in the vegetable kingdom most of them of long tried value and established reputation and some of them entirely new particularly the CANCHALAGUA a plant of most wonderful medicinal virtues lately introduced into this country from California The Recipe has been shown to thousands of Physicians who have universally approved of it, and will be shown to any Physician who desires to see it upon application either to the Proprietors or their Agents It has been used in multitudes of cases and is strongly recommended by Physicians even Professors in our Medical Colleges, Ministers of the Gospel Judges, Lawyers Merchants, Mechanics &c —a conclusive proof that there is no quackery or deception about it but that it is a medicine of most uncommon virtues and efficacy

PAMPHLETS

As no ordinary sized advertisement can begin to do justice to the merits of this article the Proprietors have embodied in a pamphlet form, the history of this Medicine—the description nature &c of its principal ingredients—the effect they are designed to have upon the human system—and above all, the incalculable amount of good which it has done They design to circulate this pamphlet extensively, but should any one be overlooked they are earnestly desired to call upon the Agents named below, and procure one gratis The hints on page ... may be worth to yourself or family THOUSANDS OF DOLLARS and it will introduce you to a mass of testimony in its favor, which is perfectly irresistible.

Such being our confidence in its virtues we are willing to warrant the Medicine in every recent case, (if used according to the directions) and where the person is not satisfied that he is not deriving benefit from it by returning the bottle within 24 hour's time,

THE MONEY

will be refunded ☞ See page 3d of the Pamphlet

For sale wholesale and retail by A L SCOVILL & CO Proprietors at their Principal Office No. 5 Warren St, New York to whom all orders for the Medicine, and letters relating to agencies, should be addressed, post paid

☞ Be sure to ask for Dr A Roger's Syrup of Liverwort Tar and Canchalagua, and let no other be palmed on to you

Caution.—None genuine unless there is on the buff wrapper a note of hand, signed with a Pen, by A L SCOVILL & CO

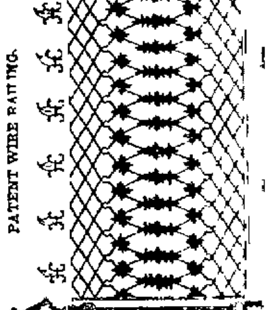
PRICE—In large bottles, $1,00, or six bottles for $5 00

jan 16 1stp3taw&d&w3m



PUBLIC attention is invited to a new article of Patent Iron Railing manufactured exclusively by themselves, of Wire or Rod Iron, of any desired size securely fastened in heavy wrought or cast iron posts

This article is admirably adapted for enclosing cottages cemeteries public grounds gardens, &c, for balconies columns cornice work, summer houses arbors, arches verandahs, window guards for banks, stores and all private dwellings lattice work, grating for sky lights, tree boxes &c, and in fact for all purposes where iron railing is required

The comparative lightness great strength and durability of the Wire Railing the beauty of its varied ornamental designs together with the extremely low price at which it is sold are causing it to supersede the cast iron railing wherever their comparative merits have been ... It is furnished ready for erection at prices varying from 35 cents to $7,50 per lineal foot

For further information ... patterns and designs, &c, please address LYMAN & ... No 4 Allan's Block, A few doors South of Worcester Depot ...

*** Persons intending to fence their lots at Mount Hope are requested to postpone the same until early Spring at which time specimens of this fence will be erected for inspection

Wilder's Patent SALAMANDER SAFES

90 STATE STREET, CORNER OF MERCHANTS' ROW

Secured against Gunpowder

....AND....

WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.

THESE are the only Safes (WILDER'S PATENT) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York ... and many others, too numerous to mention

The above Safes are manufactured and for sale by JOHN E WILDER, Boston and for sale in Bangor at the manufacturers prices, by FISKE & DALE

☞ The Following Letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E WILDER'S Safe over all others —

BANGOR, Oct 24, 1849

John E Wilder, Esq —

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city It was in the fire six hours, the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building The little repairs necessary to the Safe have been made, and we shall not need to return it, It is still as good as new

Respectfully yours, JAS EDDY

HONEY! HONEY!!

BY BEES FED.

WHO ever supposed that the management of Bees and the making of Honey would be rendered a certain and profitable business? Yet it has been, and can now be done by all wishing to engage in the business

A citizen of this State has invented a mode of treatment by which Bees can be managed without difficulty and at a small expense, honey made at the rate of from three to four hundred pounds per swarm, each season The right of adopting and using this mode has been secured by Letters Patent, and the subscriber has purchased that right for the County of Penobscot, so that he now offers the same to others either by town or individual rights as may best suit purchasers and on such terms as bring it within the reach of all wishing to engage in it

The advantages gained by this Patent, are—

1st, A perfect command of the Bees, and a large increase of the swarms, without the trouble of hiving

2d, A full security against the danger of robbing by neighboring Bees

3d, The honey is of a better quality, and much more in quantity per swarm, than has ever been made by Bees managed in any other manner This is done by feeding, as by that means the Bee is not only rendered independent of flowers for his supplies, but able to give his whole time to the work of making and storing his honey

4th, The opportunity is afforded of taking the honey at any time without disturbing the Bees;

Lastly, It furnishes a fine opportunity for all professional men of small salary to make a good addition to their income and to aged persons and persons of feeble health to support themselves independently and that to with little or no labor

Such being the advantages gained by this Patent the subscriber recommends it to the public and assures all wishing to purchase that on trial, they will find it answering their highest expectations

His residence is at this place where he will be happy to answer all those who may address him (post paid) on the subject

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With U S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, where by a Patent may be procured about six weeks earlier he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of verbally explaining their inventions, and of consulting in respect to them, matters, in general, of paramount importance in order to obtain correct specifications and claims The experience of sixteen year's practice, an extensive collection of rare works, decisions &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any, persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE,

Late Commissioner of Patents

Aug 7, 1849 1Sept 1850

GREAT IMPROVEMENT IN

Planing, Tongueing, and Grooving Lumber.

JOSEPH P. WOODBURY'S

Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same This machine will plane 6,000 feet of boards to any uniform thickness, in one hour producing a better finished surface than it is possible to plane by any other means now known, not excepting the hand plane and is peculiarly adapted to plane and joint clapboards, or weather boarding, and will do the work faster and better than any machine heretofore invented This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material, and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use The construction and organization of this machine is different from any other now in use Communications for further particulars cheerfully responded to by addressing the subscriber (post paid) Boston, Mass

One of the above Planing Machines may be seen in operation by calling on the Patentee

Whig and Courier.

John S. Sayward,—Editor.

SATURDAY, MARCH 30, 1850.

Meeting in behalf of the Youth of the City.

There is to be a public meeting on this evening at Cynosure Hall in Dow's Block for the purpose of devising some methods for the encouragement of the Boys of our city in forming and sustaining here a Section of 'the Cadets of Temperance.

This subject is worthy the attention of Parents and of the friends of Temperance generally in our city, and we hope to see some demonstration of interest by the meeting this evening. We are in some doubt about the correctness of that word hope, when we come to think of the real state of feeling in our community. There are but few who seem to manifest any great anxiety about the progress which intemperance is making. There is great want of life and heart on the part of temperance people: a sort of yielding; a willingness to concede too much to rum-drinking opinions and habits and demands. The virtue of temperance, if not the other virtues, with too many seems to be shuffled, like cards, to promote other personal aims and ends. Indeed in various ways intemperance, or the power of rum is on the increase in our community. And too many friends of temperance seem disposed to act upon the principle that if the community wish to be cursed with the evil, let it be cursed until it can perceive and appreciate the evil.

We do not like to allude to these things but duty to the community demands their utterance.

In view of these and kindred matters and in view of the welfare of the Boys of our city, we urge upon the friends of sobriety and good order and purity and virtue to give their attendance at the meeting this evening.

☞It will be perceived on examining the notice of the Superintending School Committee which may be found in another column, that they deem all the schools in the city now vacant, and are ready to receive proposals from teachers formerly in the employ of the city, as well as others, for any of the schools. The result may not differ greatly from that of previous years, but the mode is certainly different, as it has heretofore been supposed that a faithful, competent teacher might rely upon being continued from year to year unless some good cause of removal existed: whereas by the present rule no such obligation is admitted and every shool is deemed vacant, by the mere lapse of time.

It is important that teachers should understand this and make their applications immediately and submit to such examination as will satisfy the committee of their qualifications to teach, and in fact begin fresh and new.

The public schools will generally commence their spring term on Monday next and the occasion is therefore quite pressing for the applications and examinations to be made to day.

☞Zion's Herald cautions the public against an Impostor calling himself Rev A Morris, who professes to be a minister of the congregational church, and who is about collecting money under the pretence that it is for the purchase of the new testament for the Indians being published by the A. B. Society. He is pronounced a liar and an Imposter by Rev Mr McDonald. No such work is in the course of publication. This man has visited Bangor and succeeded in collecting here something like forty dollars and has been very diligent in other parts of the State.

Death of Ex-Governor Armstrong.

The Boston papers announces the death of Hon. S. T. Armstrong, very suddenly, in Boston on Tuesday evening. He was apparently in his usual health during the day, and was out in the afternoon He returned home at six o'clock, and at half past six was seated in his parlor, conversing with his wife, when suddenly he leaned forward, fell to the floor, and expired almost instantly. Had he lived, Gov. Armstrong would have been sixty-six years of age, on the 29th of April next

☞In the Police Court, in Boston on Tuesday, a boy only six and a half years old, whose little face scarcely reached to the railling of the prisoner's stand, was brought up charged with hurling a brickbat, which struck a woman in Hanover Avenue, who was standing in the door-way at the time. As this was a case of an assault with a weapon, the Court had no jurisdiction, and the little criminal was bound over for trial in the Municipal Court.

☞ We have received from those enterprising publishers, Messrs Redding and Company of Boston, two of their very handsome pamplets, one containing the authorized speech of the Hon. Daniel Webster upon the subject of slavery, and the other a speech of Hon. Horace Mann, on the subsect of slavery, in the Territories, and the consequences of a dissolution of the Union. They are handsomely printed, and worthy general circulation.

☞Littell & Co's Living Age maintains its vigor, usefulness and interest. It has the fresh sprightliness of daily life, with the sober earnestness of the progress of the months and years treasured side by side. Copies of each weekly number may be found at the Bookstore of Messrs. Geo. R. Smith & Co.

☞ The Portland Umpire of 27th, says, Coroner Norton held an inquest on the body of Catharine D Paine, wife of Michael Paine, of Cape Elizabeth, who was found dead by the road side in that town. Verdict, death from excessive fatigue and exposure.

☞The ice is all clear as far up as Hampden narrows and the steamboats will probably hereafter land their passengers at Hampden instead of Frankfort.

The President at the Plough.—The following is contained in the telegraphic despatches from Washington to the morning papers.—

"An exhibition of Reynold's self-sharpening ploughs took place this morning, (25th,) at which the President and several members of Congress were present President Taylor exhibited his skill as a farmer, by holding all present at holding the plough

Boston, March 26th, 1850.

To the Editor of the Whig & Courier:

Perhaps you would like to know how the great meeting in Faneuil Hall, to read Mr. Webster out of the North, went off. For some days it had been rumored that a meeting was to be holden in Faneuil Hall, to respond to Mr. Webster's speech. Many quiet people supposed it was to be a meeting of calm thinking men, to approve of a National,—American,—Statesman-like consideration of the slavery question. But as it turned out, when the call for the meeting was published, it was merely a convention of the old Anti-Slavery party, assisted by some of the *lesser lights* of the Free Soil party of Boston; although the meeting was called a meeting without distinction of party The meeting was organized by choosing Mr. S. E. Sewall, President, and Samuel May, Jr., and W. A. White, Secretaries.

The ball was opened by a very brilliant, sarcastic declamatory speech from the Rev. Theodore Parker, a man of some theological note, who, while professing to *believe* and *trust* to the *native purity* of all men's motives, was never yet known to recognize their existence in an opponent, if so doing would spoil a brilliant sarcasm. He described Mr. Webster as having *foully* betrayed the North, as having made his *bid* for the Presidency, as having bowed his forehead in the dust before the South. His anti-slavery thunder was said to be "as harmless as sculptered thunder in the hands of a marble god. After paying the most eloquent tribute to Mr. Webster's intellectual abilities, he went on to say that Mr. Webster had covered himself with the deepest moral shame.—That in all American history, there was only one name to be mentioned with his, and that was—Benedict Arnold. This sentiment, one or two of the faithful, applauded, one or two cried *shame!* The majority looked their scorn. Mr. Parker then offered resolutions re-affirming the Wilmot Proviso, declaring that Massachusetts repudiated Daniel Webster, "that the speech was one not fit to be made, &c."

And thereupon, Mr. Wendell Phillips, another god of this "Modern Athens," mounted the rostrum, and declared that he did'nt care the snap of his thumb, for the speech or its logic. His heart told him that it was *all false*, and that was enough. Hungary had its *Georgy*, and the North had its *Webster*! Webster had never done anything for freedom, or the North, except to call a convention to oppose the annexation of Texas, which convention he ran away from, and to dictate an address upon the unconstitutionality of the measure, and then disown the address.

When, as a sort of Bathos, Mr. Samuel Ward, a Methodist Preacher, a gentleman of color, from Syracuse, N. Y., condescended to enlighten the multitude upon the singular foolishness of Daniel Webster, and the eminently superior statesmanship of Mr. Wm. H. Seward,—then the resolutions were passed and the meeting adjourned at about 10 o'clock P. M.

Faneuil Hall was filled to its utmost capacity. But a third of the people there, approved of the meeting or its object, and the applause of denunciatory and violent passages of the speeches was confined to comparatively a small portion of the audience, while their wit and humor found ready enough responses from all.

In the course of the evening, I happened to pass through all portions of the floor of the Hall, and in no part of it, except the *platform*, did I not hear men of all classes, from the wealthy merchant to the man in striped frock and greasy hat, express the conviction that the speech of Daniel Webster was manly, noble, and full of the *truest moral courage*, and that it yielded nothing of Northern *rights* to the South. The meeting held last evening is no more to be taken as an index of the real sentiment of the people of Boston or of Massachusetts, than a tag alder bush is to be considered representative of the Pine Forests of Maine. In Boston, in Massachusetts and in New England, there is still the deep underwater of calm reason which is to make itself felt, after the foamy crests of the surface have lashed themselves into nothingness, and here *that* will sustain Mr. Webster. It is rumored that there will soon be another Faneuil Hall meeting of a very different sort.

Yours, truly, M——.

[For the Whig and Courier.]

Dr. Prevost and Electro-Biology, ect.

Our citizens, recently have had a feast of reason and flow of soul while attending Dr. Prevost Lectures at Codman Hall Oldtown. The Science of Electro-Biology, is truly a touch above the vulgar, while in the hands of this talented erudite and Scientific gentleman; I say gentleman, because every development of him in public, and in private too, clearly shows that his highest motive is to enlighten and benefit humanity by teaching "the Science of Life" and the wonderful powers of man over and upon his fellow man for good.

This science and the phenomena produced through its agency, are no humbug! There is no collusion about Dr. Prevost or his experiments. A goodly number of our intelligent citizens, who were skeptical, (like all judicious men; not believing till convinced by facts and demonstrations) together with the frank and generous courtesy extended to any and all present to investigate, examine, question and decide for themselves, whether the subjects then being operated on, were deceived or not, were convinced.

Mr Lawrence, the gentleman who travels with the Dr., is a gentlemanly and intelligent young man; and an excellent "Clairvoyant" subject. He examines subjects and describes diseases exceedingly correct; and his prescriptions for the sick, while in the clairvoyant state, are reasonable and strikingly common sense.

Success to the Doctor and Mr. Lawrence, his clairvoyant. May all who have an opportunity to see and hear and learn, avail themselves of it, and confer a blessing on humanity.

One who has been there to see.

Circumstantial Evidence.—I have heard some very extraordinary cases of murder tried. I remember, in one where I was council, for a long time the evidence did not seem to touch the prisoner at all, and he looked about him with the most perfect unconcern, seeming to think himself quite safe. At last the surgons was called, who stated that the deceased had been killed by a shot, a gun shot in the head, and he produced the matted hair and the stuff cut from and taken out of the wound. A basin of warm water was brought into the court, and as the blood gradually softened, a piece of printed paper appeared—the wadding of the gun, which proved to be half of a ballad. The other half had been found in the man's pocket when he was taken. He was hanged.—[Lord Eldon's Note Book.

Emigration to California.—The steamer Gen. Washington arrived from Cincinnati last night, full to overflowing with passengers for St. Louis, about 100 of whom are en route for California.

The Saladin left here for St. Louis yesterday, with 150 passengers, the majority of whom are destined for California We learn that hundreds of families from the interior of Kentucky and Ohio are making preparations to emigrate to the gold regions this spring.—[Louisvill Courier, March 16th.

Sailing vessels are now plying in considerable numbers between Panama and San Francisco, being fitted up expressly for the business, and in a very handsome style. The captains leave Panama, and get as far to the west-ward by the aid of currents and shore winds as desirable. They then fall in with the S. E. trades, which carry them nearly up to San Francisco. The passages are made within ten or twelve days of the steamer's time.—N. Y. Express.

Trial of Professor John W. Webster on the charge for the Murder of Dr. George Parkman.

WEDNESDAY AFTERNOON.

Mr Sohier opened the case for the defence.

May it please the Court—Gentleman of the Jury:

I am aware, Gentleman of the Jury, that it is usual, perhaps it may be considered as imperative, for counsel to call the attention of the jury to the importance of the case; but I cannot do it, I cannot allow my attention to wander from the subject before us, otherwise, I might speak of the character of the man—a man who for twenty-five years has been a professor at an institute where many of us were educated—of his high position in society; but, gentlemen, I must contine myself to the cause—to the rules of law and evidence—to the long chain of circumstantial testimony which has been introduced. We are to consider the question which has agitated the community for a long time. The question, gentlemen, is this, is the life of the prisoner at the bar forfeited by the commission of a great crime? It devolves upon you to say whether he leaves this Court to his family or to the gibbet. This devolves upon you to say whether the fire on his hearth shall continue to burn, or be extinguished—that devolves upon you to say whether he is guilty, upon your oath.

Gentlemen of the Jury—In some cases you might err with comparative safety, but to err here, is destruction to the prisoner. Can we then, gentlemen, stand in an antagonistic position to each other? We are to assist each; and it is your duty to constitute yourselves the counsel of the defendant, and to see that he does not suffer by your insufficiency.

Gentlemen of the Jury—Allow me to address a few remarks to you on the examination of your own minds, and that you eradicate the least particle of prejudice against the prisoner; I know you took your oaths that you had no prejudice against him, but can you say so now, at the end of a long week's trial? Gentlemen, there is no safety in the impression that one is not prejudiced, unless he makes the most determined effort to eradicate it from his mind.—The nature of prejudice is subtle, and you will be on your guard against it. Gentlemen, we are to suppose that you have forgotten the great excitement which was created by the disappearance of Dr Parkman, especially when it was said that the remains had been found in the Medical College, which endangered even the institution. Gentlemen, we ask you, then, to divest your minds of any remaining portion of prejudice.

Gentlemen of the Jury—I first propose to call your attention to the rules of law defining the offence; secondly, to the indictment; thirdly, to the nature of the Government evidence; and, lastly, the facts which we intend to give in evidence.

* * * * * *

The case which I have just read shows the danger of relying on circumstantial evidence, and the consequent necessity of the rules I have stated.—To illustrate, take the Government evidence. It consists of a great amount of circumstantial proof, by which they have endeavored to convict the defendant. It is in two parts. First, to prove the *corpus delicti*; and secondly, that Dr Webster caused the death They start by attempting to prove that Dr. Parkman was killed because he was seen to enter the Medical College, and other circumstances. They then say Dr Webster destroyed him by violence. Why? Because Dr Webster was the last person with whom he was seen. But suppose Dr. Parkman should appear, that would destroy the inference of the second class of circumstances.

So the necessity of the rule that each circumstance should be proved; and of the other rules have stated. Now, we take the ground that the circumstances are not proved beyond a reasonable doubt; and secondly, that the inferences do not follow which the Government would draw.

I come, then, gentlemen of the jury, to state the heads under which to introduce some evidence.—We do not now go into the circumstances of the Government evidence We do not intend to give any direct evidence to show how those remains came to be found where they were. The defend at stands upon the same ground that you would

Again, we have no direct proof as to the nature of the interview between Dr. Webster and Dr Parkman There can be no direct proof on that subject; so that we must rely upon such circumstances as we can prove, taken in connection with those proved by the Government.

We shall introduce the character and reputation of the defendant, which will be more important than if the Government case were supported by direct evidence

It is a rule of law that a defendant may introduce evidence as to his character in respect to the crime charged. He is charged with having committed a violent, cruel and inhuman act, and we shall give evidence as to his character in these respects.

Again, we shall introduce evidence as to the conduct of Dr. Webster during the week after the disappearance of Dr Parkman

Then, as to the fact, whether Dr Parkman did or not leave the Medical College after he entered it

We shall show that Dr. Webster has given his attention to the pursuit of chemical studies; that though he may have his peculiarities, that he never was a violent or cruel man. That it was no new thing for Dr Webster to pursue his studies night and day, and to lock up his laboratory. Such a course is more or less necessary.

We shall show how Dr Webster passed the time after the disappearance; and there are all that we can show under the peculiar circumstances of the case.'

The testimony of a large number of persons was taken, that they had been acquainted with Dr. Webster for number of years, and that he was considered a peacable and humane man, and highly regarded. Some of the witnesses regarding him as a nervous and irritable man.

Daniel S Greene, sworn. Reside ——. Recollect the Sunday after the disappearance of Dr Parkman. I was the person, who have the information that the toll man had seen him pass. Was at the toll-house on Sunday evening. Two or three men came there, and one of them said he had charge of the building, and Dr Parkman had been there, and paid Dr Webster 570 odd dollars. I was sitting back in the toll house. I understood him first to say that he saw the money paid, but afterwards he said he did not. I understood him to say that he saw the man go out. He referred to Dr Parkman. The day he spoke of was Friday, and time of the conversation the Sunday following.

Cross-examined by Mr. Bemis. He thought as I did at the time, but since that time I have understood he differs from me. I cannot give Mr Littlefield's language. $480 was the amount. I said $470, but I was wrong. There were no cents. As to the person I cannot say it was Mr Littlefield. I said it was the man who stated that he had charge of the building. He said he was at the Medical College when he saw Dr Parkman. Cannot recollect where he said he was. I understood him to say he saw Dr Parkman in the building Did not understand where he was; but he said he saw Dr Parkman go out. I so understood it. I did not say that he said he saw Dr Parkman in the building. Do not recollect that Mr Littlefield said he saw Dr Parkman come into the building. I understood him first to say he saw Dr Parkman pay the money to Dr Webster, but afterwards I understood him to say that he did not see him pay the money. I did not understand Mr Littlefield to say that Dr Webster said he paid the money.

Judge Fay sworn.—I reside in Cambridge, near the college. Have been an inhabitant of Cambridge, 40 years. Am well acquainted with Prof. Webster for 15 years lived near him. I have been in the same circle of society. Have always understood him to be an amiable man, somewhat subject to nervous excitement, but have generally understood him to be a man of kindness. Recollect the Friday of Dr. Parkman's disappearance. Saw Prof. Webster on that evening. Saw him at Mr. Tyler's a little south of Dr. Webster's house. I came in about 9 o'clock. Prof. Webster and his wife, and Dr. Morris Wyman and his wife, were there. Professor Webster appeared as usual. Had a good deal of conversation with him.—Did nothing but engage in conversation. Were talking about the topics of the day. Saw him during the week following, several times. I was at his house on two evenings—Sunday, Monday and Tuesday, in consequence of the disappearance of Dr. Parkman, to make inquiries. Dr. Webster was one of those persons who would be most likely to know about it, and to be well informed. Spent a portion of Monday evening—two or three hours— there; was invited to play whist, and sat down with them. Dr. Webster and his daughter were against Mrs. Webster and myself.

Marianne Webster, sworn. Am a daughter of Prof. Webster. Have endeavored to call to mind the circumstances he was in and his conduct during the week before his arrest. My father was at home at tea the Friday of Dr. Parkman's disappearance a little before 6 o'clock. Took tea at home. He was at home until 8 o'clock. He went to a neighbor's house with us—my sisters, my mother, and myself.—Father waited upon us to a party, and then left us. We got home about 12½ o'clock, and he let us in. He retired to his room about 1 o'clock—am positive. We all went up together. Where he was while I was at the party I don't know of my own knowledge.

On Saturday, I did not breakfast with the family. I first saw him at 1 o'clock. He was at home to dinner. After dinner I did not see him towards night. I was not at home in the afternoon. Saw him at tea. He was at home in the evening. Spent the evening in reading. My father read aloud. Am certain that he was at home at tea. Saw him before he was called to tea. Saw him in the study. Can't call to mind seeing my father Sunday till I saw him at church at the college chapel. He went from the chapel to take a walk. I then saw him at dinner, earlier than usual—usually dined at one—because my father was going to town.—He then went in. I knew that he was going in in the morning. I was told that he had intended to go in early in the morning. Understood that he was going in for the purpose of going to Dr. Francis Parkman's, to inform him that he had paid Dr. George Parkman a sum of money.

My father was at home on Monday. We dine at 2, and he came home just at dinner time. I think he was not at home in the afternoon. Saw him again at 6 o'clock at tea. He was at home that evening—were playing whist. I retired about 10. My father was in the house at that time.

He was at home to dinner on Tuesday. He was at home a short time after dinner, but after that I can't recollect. He was at home at tea, and he passed the evening at home till between 10 and 11. We were playing whist.—There was a fire that evening, in the direction of the court house. My father generally breakfasted at home with the family.

On Wednesday, my father was at home at dinner. Saw him at home about 11 o'clock—He came in at that hour. I was in the dining-room, and he came in and spoke to me about a book I was reading. He then went out in the garden, and worked till dinner time. He was at home that afternoon till 20 minutes past 6, when he went out with me and my sister, and returned about half past 10, when I retired, and left him sitting in his dressing-room.

On Thanksgiving day, my father was at home all day and evening. He did not go into Boston at all that day.

First saw him on Friday at dinner. He was at home part of the afternoon—about half an hour after dinner. He was at home part of the evening. He came home at sunset.

Have a sister at Fayal. Have pretty constant intercourse between the family here and the family there. I keep a journal, from which I write to Fayal what transpires here, and I have refreshed my memory from this journal. My father was in the habit of sending plants to Fayal, in air-tight boxes. He was in the habit of having articles sent from Fayal, such as sub-marine plants. Did not know that there were any plants being got ready to send.

Two other daughters of Prof Webster testified to the some purport.

Dr Wm T G Morton, sworn. I am a physician. I practise Dentistry. Have practised about 8 years. I usually manufacture my own mineral teeth. Have had opportunities of making myself acquainted with Dr Keep's mode of manufacturing teeth.

[The teeth were shown him.]

I see not anything at all about those teeth, be which they could be identified more than any other. The inside of the teeth have the appearance of being ground out after they were made. It is by no means an uncommon practice to grind them in this way. It is done by introducing a small wheel. It is common to use platina pins. There is no peculiarity in these teeth in respect to the position of the holes.

[He now examined the mould prepared by Dr Keep.]

My impression is, that, if that was placed among a dozen moulds, I should not be led to pick it out from the fact of the absorption of the jaw. It is absorbed more than some and less than others.

[He compared the working plate with the mould, and said it fitted no better than what he could pick out of a refuse lot—he thought he could find some that would fit better. He also fitted on a block of his own on the right side of the mould, and said it fitted as well as he could make one, except that it was a little too short. He did not think he had any that would fit the other side, more than the general outline, which was generally alike. He exhibited a model which he said was a very striking one, with a much larger absorption than had taken place with Dr. Keep's. These were all moulds that do had used with patients. He exhibited a jaw with the same number of teeth, in the same position, as that of Dr Keep—not quite so much absorption. There were two or three with the same number of teeth.

The jaw-bone found in Dr Webster's laboratory was shown him. He was asked how one of his blocks would fit. He said it would fit very well. He was shown a block of mineral teeth found in the furnace, and was asked if there was any bone on it. It looked as the teeth did when the muffle broke and let them fall into the fire. He examined the model of Dr Parkman's with reference to the projection of the lower jaw, and exhibited several of his own in which he said the projection was greater. So far as the projection goes it was nothing very remarkable. The block of teeth found in the laboratory was shown him, and he said that he could not judge anything from its fitting the mould.

It might have been twisted or warped by the fire. He argued from the fact that the block connected with it was warped and fallen over, and from the fact that the lower one had been in the same fire, he thought there was a liability that the lower one might have been warped also.

By Mr Bemis. Knew Dr Parkman when he was alive. Should hardly know what to make of a peculiar jaw, for I never saw two jaws alike. There is a general resemblance to all jaws. They all resemble each other in particular parts. I have seen a good many jaws like Dr Parkman's. I have seen other jaws so near like his that I could not pick his out if I saw half a dozen together.

I have seen other jaws that projected as much as his. I should not be able to identify my work in the state of this. I doubt whether I could generally identify my work, if shown to me without having passed through the fire.—Teeth made for one man would fit another, but not the plate.

I never saw a new case made for one man that would fit another. The person whose jaw is most absorbed in my moulds, I should judge to be from 60 to 65. The form of it is not so abrupt as Dr Parkman's. There are other cases that are very abrupt. Should think the difficulty of fitting teeth to one mouth which were made for another would be greatly increased by there being an upper and lower set.

Prof. Treadwell, recalled. I live in the immediate neighborhood of Dr. Webster. I saw him on the evening of Friday, Nov. 23. The evening was spent in general conversation. Mr. and Mrs. Webster remained there till nearly 10.

I recollect his appearance, that there was nothing unusual. He was cheerful and collected; did not seem wandering I saw him the next week, twice I saw him on Tuesday evening, somewhere near the burying ground It was after six o'clock. I had taken my tea, which was at 6

This was the place where I usually met him, and I thought he was returning from Boston. As we passed we recognized each other and stopped, and I think he introduced the conversation. There was nothing remarkable about his appearance.

A second hand *four wheel Chaise*, with two seats, for sale. Inquire of N. H.

d&w3w

"The fair Nereides
They came on shore, and slily as they fell
Convey'd each lover into an oyster-shell."

So sung the author of Britannia's Pastorals; and no wonder that Plowe wrote praisingly of this delicious delicacy of the palate which titillates with so exquisite a sensation and causes the limpid saliva to flow in a Niagara of delight. How large and sweet and pleasant and tender and white are the **OYSTERS** found at GEORGE FARRINGTON'S famous *SALOON*.

A Dutchman calls for his *Æster*, and GEORGE serves him in a twinkling.

A German steps into a curtained alcove and asks for his *Auster*, and a bowl of the white soup is placed before him.

The Swiss call for *Ostra*, and the glistening dish is provided.

The Frenchman seats himself in Alcove No. 76, and orders *Huitre*, and smiling GEORGE furnishes a variety which makes the Frenchman's stomach have a holiday of delight.

A dark Spaniard demands his favorite *Ostia*, which FARRINGTON'S attendants immediately place before him.

The Italian, panting with expectation, throws off his little hat, seats himself in the richest alcove he discovers unoccupied and calls upon *FARRINGTON* for *Ostria*, which GEORGE, nothing loth, places before him in the raw, the roast, the soup, the fried, the fricassee, and other shapes, which his skill has discovered.

The Yankee take his comfortable seat and orders his *Oysters*—four plates, and six cups of Coffee! His order is answered, for the Proprietor is everlastingly on his feet.

Such is a brief picture of the famous Establishment of GEORGE FARRINGTON,—the great emporium of the Eastern country,—where **OYSTERS** of most excellent quality, and deliciously cooked and seasoned, may be obtained in any quantity.

Remember the place, at the East end of Kenduskeag Bridge, just two doors from John Low's iron-sided, weather-beaten, solid and invincible City Market, where, if the gentlemanly Proprietor is not himself present, Simon Sidelinger will be found with all the fat and fair slices.

Caution to the Public.

Beware of Humbugs and Quacks!

THE HUMAN EYE is too delicate an organ to be trifled with; notwithstanding this there are Quacks in our community, unprincipled enough, that of course know nothing of the Science of Optics, and will for mere paltry gain, buy, sell, and *puff up* an inferior article of SPECTACLES that cost half price! The fenses, in particular, being so untrue and imperfect as to ruin the sight entirely if persisted in for any length of time.

The subscriber having served a regular apprenticeship with Mr. D. B. WHDIFIELD, Optician, of Boston, and with 17 years' practice in manufacturing and fitting lenses for all defects of the eye, within the reach of Optical assistance, he trusts he will be enabled to give satisfaction in this department, to all who favor him with a call.

Doctor GEORGE GOURLAY,

Homœopathist.

Member of Faculty of Physicians and Surgeons, Glasgow, Scotland.—Graduate of Pennsylvania Med. College, Philadelphia.

WOULD inform the citizens of Bangor, that he has commenced the Practice of Medicine in this city, and respectfully tenders them his Professional services.

Dr. G. deems it expedient to state that he has had ample means of acquiring a correct theoretical, as well as a Practical knowledge of Medicine and the Collateral Sciences, having been engaged in the actual practice for the twelve years last past, besides having spent a series of years in the study of Medicine and Pathology, in several of the most celebrated Medical Institutions in Europe.

The Dr. trusts, by the faithful discharge of his duties as a Physician, not only to merit, but receive a liberal share of public favor and confidence.

JOSHUA HOODY,

....Auction and Commission Merchant....

Store No's 30 & 31 West Market Place.

SALE AT OFFICE, THIS EVENING.

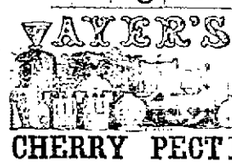
Real Estate at Auction.

NOTICE is hereby given that I will sell at public auction, at the Auction Room of REUBEN S PRESCOTT, in Bangor, on *TUESDAY*, the fourteenth day of May next, at ten o'clock in the forenoon, a certain lot of land situate in said Bangor, being the same now occupied by Samuel B. Freeman, being the same premises conveyed in mortgage by said Freeman, to me, by deed dated Oct 23, 1847, and recorded in Penobscot Registry of Deeds, book 160, page 458, which deed contains a provision giving authority for the sale of same as aforesaid, in case of a default in the payment of the sums secured thereby,—reference to said deed to be had.

Said Freeman having failed to make said payments as provided in said deed, I will sell said land as aforesaid in pursuance of the said authority.

CHARLES CLARK.
Bangor, March 13, 1850 d3w

Great Cough Remedy!!



CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING-COUGH AND CONSUMPTION.

This beautiful, agreeable, and highly concentrated preparation of the "WILD CHERRY," is now universally acknowledged to be the only effectual cure for complaints of the Lungs and Throat. In every case in which it is relieved, it cures, and in most, if persevered in, is permanently cured.

The Formula for which it is prepared has been laid before the Medical Colleges and a large part of the Medical Profession of this country, and they have agreed in according it unlimited praise as the most skillful preparation and the most certain known remedy for diseases of the Lungs and Throat.

READ THE FOLLOWING FACTS.

Dr. Brewster, of Windham Co., Conn., sends us the following testimony:—

Dr. J. C. Ayer—Dear Sir:—I enclose you a certificate from Mrs. Catharine K. Cady, a highly respectable lady of this village, wife of Mr. Seth Cady, Deputy Sheriff, Windham, Co., Connecticut. The cure in her case was very prompt, and has attracted general attention. W. A. BREWSTER, M. D.

WEST KILLINGLY, Ct., Sept. 28, 1849.

This may certify that I was afflicted with a very severe cough in the winter of '47-8, which threatened to terminate in Consumption. I had tried many medicines in vain, and was cured by the use of AYER'S CHERRY PECTORAL.

DIRECT EVIDENCE.

Dr. J. C. Ayer, Lowell—Dear Sir:—Feeling under obligations to you for the restoration of my health, I send you a copy of my case, which you are at liberty to publish for the benefit of others. Last autumn I took a bad cold, accompanied by a severe cough, and made use of many medicines without obtaining relief. I was obliged to give up business, frequently raised blood, and could get no sleep at night. A friend gave me a bottle of your Cherry Pectoral, two of which I immediately commenced according to directions. I have just purchased the fifth bottle, and am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine.

E. S. STONE, A. M.,
Principal Mt Hope Seminary.

From Dr. Bryant, Druggist and Postmaster, Chicopee Falls, Mass:—

Dr. J. C. Ayer—Dear Sir:—Enclosed please find remittance for all the Cherry Pectoral has sent me. I can unhesitatingly say that no medicine we sell gives such satisfaction as your's does; nor have I ever seen a medicine which cured so many cases of Cough and Lung Complaints. Our Physicians are using it extensively in their practice, and with the happiest effect.

Truly yours, D. M. BRYANT.

Prepared by J. C. AYER, Chemist, Lowell, Mass.

PRICE 75 CENTS PER BOTTLE.

Sold in Bangor by LADD & INGRAHAM, BARGENT & EMERSON; by G. L. Bradley, Bucksport; N. B. Folsom, Dexter; Dr. Gilman, Frankfort; F. Bartlett, Dover; Brown & Baker, Exeter Mills; A. S. Hall, Brewer; Snow & Baker, Hampden; S. P. Hatch, Castine, and druggists generally.

Dr. Townsend's
COMPOUND EXTRACT OF
SARSAPARILLA,
Wonder and Blessing of the Age
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.
This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body. It is one of the very best
SPRING AND SUMMER MEDICINES
ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 15,000 children during the two past seasons.

CAUTION.
Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

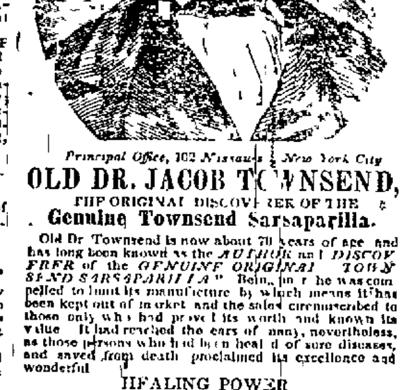
CAUTION EXTRA.
A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original etc. This Townsend is no doctor, and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr, for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD Dr Jacob* Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms.



Principal Office, 102 Nassau St, New York City

OLD DR. JACOB TOWNSEND,
THE ORIGINAL DISCOVERER OF THE
Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR and DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA*. Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated. This time has come, the means are supplied: this
GRAND AND UNEQUALLED PREPARATION
is manufactured on the largest scale and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S P Townsend's it improves with age, and never changes but for the better because it's prepared *on scientific principles* by a *scientific man*. The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation and acid* which is injurious to the system. Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process*, known only to those experienced in its manufacture. Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the
GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared that all the inert properties of the Sarsaparilla are first removed, every thing capable of becoming acid or of fermentation is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of *CONSUMPTION, DYSPEPSIA and LIVER COMPLAINT*, and in *RHEUMATISM, SCROFULA, PILES, COSTIVENESS*, all *CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach*, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in *Colds* and *Coughs*, and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat and every other part.

But in nothing is its excellence more manifest [illegible] and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus* or *Whites*, *Falling of the Womb*, *Obstructed*, *Suppressed* or *Painful Menses*, *Irregularity* of the menstrual periods, and the like; and is as effectual in curing all the forms of *Kidney Disease*.

By removing obstructions and regulating the general system it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation*, *Neuralgia*, *St Vitus Dance*, *Swooning*, *Epileptic Fits*, *Convulsions*, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body and the insensible perspiration, relaxes all strictures and tightness, removes all obstructions and invigorates the entire nervous system. Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES, *souring*, *fermenting*, and *blowing the bottles* containing it into fragments; the sour acid liquid exploding and damaging other goods. Must not this horrible compound be poisonous to the system? *What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence, heartburn, palpitation of the heart, liver complaint, diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours and thus spoils all the fluids of the body more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla*, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND.

We wish it understood because it is the *absolute truth*, that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and *infinitely dissimilar*, that they are unlike in every particular, having not one single thing in common.

As S P Townsend is no doctor and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases.

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience its

Transcendent Power to Heal

Principal Office 102 Nassau st., N. Y. City.

S C R O F U L A

If thousands of Cures of Scrofula Cancers, Syphilis and other impure diseases of the Blood—and if the very SMALL QUANTITY which was used of a Medicine to effect Cures of such Diseases be any proof of the purifying medical power of the Medicine which has subdued and conquered such Diseases—then there is unquestionable evidence that—

BRANT'S INDIAN
[illegible]

is such a Medicine, in every respect, and there is abundant proof in *great cures effected* that ONE BOTTLE of it contains *more purifying healing virtue* and *medical power* than there is contained in *Four Bottles* of any sarsaparilla or any *other medicine* that has ever been offered for sale. There is undoubted proof in our pamphlets that by the use of this great *Indian Purifier* they that were DYING yet LIVE—they that were LAME and CRIPPLED can now WALK—they that were SICK, SCROFULOUS and otherwise diseased have been HEALED and CURED.

Hundreds—Thousands—

[illegible] used BRANT'S PURIFIER, after having used and [illegible] ALL the *sarsaparillas* and other medicines recommended to cure blood diseases have *decided* that—

Brant's is the Cheapest,

because *One Bottle* of it has *more* medical curative matter in it, and in consequence cures *more disease* in much *less time* than *one bottle* of any other medicine.

If then ONE *Bottle* of BRANT'S PURIFIER will cure FOUR TIMES more disease than *one bottle* of *sarsaparilla*, BRANT'S PURIFIER would be as *cheap* at *four dollars* a bottle as *sarsaparilla* at *one dollar*. But BRANT'S PURIFIER is sold for only ONE DOLLAR a bottle, and as a bottle of it *has cured*, and is *capable of* curing *Four Times* as much disease as *one bottle* of *sarsaparilla*, therefore, sarsaparilla in consequence of its *less* power and *less* medical efficacy, should be sold at *no more* than *Twenty Five Cents* per bottle to be as *cheap* as the PURIFIER at *One Dollar*.

One Dollar's Worth!

How much CANCER—how much SYPHILIS—how much SCROFULA—will *One Dollar's worth* of *Brant's PURIFIER* cure? Read the following statement which is a specimen of its power.

CANCEROUS SCROFULA!

This is the case of a *Dying man* who *yet lives*. He was *cured* of a worse case of Scrofula by only *Twelve Bottles* of Brant's Purifier than ever was cured by the use of *Twelve Gallons* of the *best sarsaparilla* that was ever made. Sarsaparilla has not *sufficient medical power* to effect the cure of such a *revoltingly hopeless case*.

Mr J B HASKIN of *Rome, Oneida Co N Y* had *Scrofula four years*—was confined to his bed the *last year*—he was so much diseased and debilitated as to be unable to raise his hand to his head. He had the *best* medical advice—had used *all* of the *best sarsaparillas* to no good effect—*got worse* and *worse*, and was considered to be in a *Dying State*, and could not live *twenty four hours* longer when he commenced using BRANT'S PURIFIER. His *neck* was *eaten nearly off* from *ear to ear*—a *hole* was eaten through his *windpipe* under his chin, so that he could [illegible] through the hole—his *ear* was so *eaten* around that it could be *lifted* up out of its place, it only holding by a *small* piece—the use of *one arm* was *destroyed* by two ulcers—an *Ulcer* under the arm as large as a man's *hand* had nearly *eaten* through his side *into his body*. He was afflicted with *Twenty* such *putrid*, *acrid offensive ulcers* on various parts of his person. For further particulars, see our *Pamphlets*.

Doct THOMAS WILLIAMS one of the most skilful physicians of Rome was called to see Haskin the day after he commenced using *Brant's Purifier*. Doct W examined him and then told him that *all* the *medicines* in the *world* could *not cure* him—that his case was

Worse than Hopeless!

Now hear Mr HASKIN'S statement of cure. He said My wife procured one bottle of *BRANT'S PURIFYING EXTRACT*—THAT BOTTLE enabled me *to get off my bed*—the SECOND bottle enabled me *to get out of the house*—the THIRD enabled me to *walk two miles*, and when I had finished using *Nine Bottles* SEVENTEEN out of *Twenty Ulcers* had HEALED UP and *three bottles* more effected a perfect cure and restored me to *good health*.

FOURTEEN WITNESSES.

The above facts are certified to by DOCTOR T WILLIAMS, Mr G R BROWN of the *Rome Hotel*, Messrs BISSELL & LEONARD Druggists, and ELEVEN other *respectable* [illegible] of Rome.

CANCERS CURED.

Mr O H KINNEY merchant, *Clinton, Oneida county*, N Y, informed us that a cancer doctor in said county was effecting wonderful cures of *CANCERS* through the efficacy of "BRANT'S PURIFYING EXTRACT." *A cancer doctor* in Greene county N Y, is also using said PURIFIER. Mr A B SETTLE druggist, at Canajoharie, Montgomery county, N Y, has informed us of an important *cure of a CANCER* of long standing, which was effected on an aged lady of that place. If therefore this PURIFIER *cures Cancer* by its purifying healing power, what impure disease of the blood can it not cure? Seven years' experience and triumph says there are none but what it will cure.

FEVER-SORE CURED.

The Rev RICHARD DUNNING, Pastor of the Presbyterian church, Adams Basin, Monroe county, N Y, wrote to us—"I have just received a letter from Mr CHANNEY DUNNING, relative to the cure of his Fever-sore. You may depend on what it states for he is a Christian man and an elder in the church. Some years since he had to have one of his legs *cut off*, to save his life in consequence of a Fever sore. The other leg being now affected and about to be amputated, I recommended BRANT'S MEDICINE. Read the result. He says *I have used only* THREE BOTTLES of BRANT'S MEDICINE. *I placed* ALL HOPE *from your recommendation in that Medicine*, and I can now say that, with the blessing of God, *it has effected a cure of my leg*." See Pamphlets for full particulars.

LIVER-COMPLAINT!

Dr NATHAN HUBBARD, of *Stamford, Conn*, one of the *oldest* and most respectable physicians, was afflicted with *Liver-Complaint* many years and was *perfectly cured by using* BRANT'S PURIFYING EXTRACT. We could name hundreds of other cases, also cured.

FEMALE WEAKNESSES & COMPLAINTS.

No remedy offered to the public has ever been *half as certain and effectual in restoring* ALL the incidental *weaknesses* and *irregularities* of the sex, as BRANT'S PULMONARY BALSAM. It makes no difference whether the derangement be *suppression*, *excess*, or other *weakness*—it REGULATES ALL, by *strengthening* the SYSTEM, *equalizing* the CIRCULATION and *soothing and allaying* NERVOUS IRRITABILITY. See pamphlets.

W CHANGE OF LIFE,

from the *girl* to the *woman* and the *woman at middle age*—the one she is *accelerated* and the other so *gradually suppressed*, as to prevent any of the *fatal diseases* that frequently arise in consequence of such change.

Dyspepsia—Sour Stomach!

"ATTICA, *Genesee Co, February* 1, 1848.
"M T WALLACE & CO—*Gentlemen*: I was, for more than a year, afflicted with a disease of the stomach. I could not eat any fat or greasy substance without causing great pain, sickness, and vomiting, and was continually afflicted with a sour stomach. I, as an experiment, tried one bottle of BRANT'S MEDICINE, which, to my utter disappointment, *eased* and *relieved* the *usual pain after eating*. I therefore used a second bottle, which has completely cured the disease. I am now well and hearty and can eat almost any thing without being pained, or the stomach becoming sour.
"Yours respectfully, T S WILCOX."
Mr Wilcox is a respectable merchant of Attica.

NURSING SORE MOUTH, LUCORRHŒA, &c

"BYRON, GENESEE Co, N Y, Oct 19, 1847.
"Messrs M T WALLACE & CO: Some time last winter my wife became so debilitated from the effects of *Lucorrhœa* and *Nursing Sore Mouth*, that she could not lift her child or perform any household labor. Her medical treatment was varied according to the advice and prescriptions of the most eminent physicians, until *our skill* was exhausted in useless efforts. She became so very a skeleton, that at the time she commenced taking *Brant's Medicine* she weighed no more than eighty five pounds, but by the time she had taken *four bottles*, she became perfectly well. The cure is so perfect that she is now enabled to do all necessary household work and gained thirty pounds of flesh in four weeks.
"Yours truly, C B GALENTINE."
The reader will observe that Mr GALENTINE says "*our* SKILL." He, we are informed by L S TERRY, Esq, of the same place, has studied medicine.

MERCURIAL DISEASES.

BRANT'S PURIFYING EXTRACT is a *perfect and thorough eradicator of all the effects of* MERCURY, or any of the various preparations of CALOMEL or MERCURY *from the system*, and it restores the *blood*, *muscles* and *all the parts diseased*, to their original HEALTHY STATE.

GENERAL DEBILITY OF THE SYSTEM!

Mr A HOLTSTANDER, merchant, *Oberlin, Lorrain Co, Ohio*, wrote, December 19, 1848, and after having stated how like a charm the PULMONARY BALSAM had effected the cure of his wife's consumptive cough, said: "I have personally used *BRANT'S PURIFYING EXTRACT* for general debility of my system, and I have no hesitation in saying that it is the best medicine to RESTORE and INVIGORATE THE SYSTEM that I have ever used. In every instance where we have sold BRANT'S MEDICINES, they have proved their efficacy, and given the BEST SATISFACTION."

SALT RHEUM,

and all impure *chronic diseases of the* BLOOD, are always cured by *BRANT'S EXTRACT*.

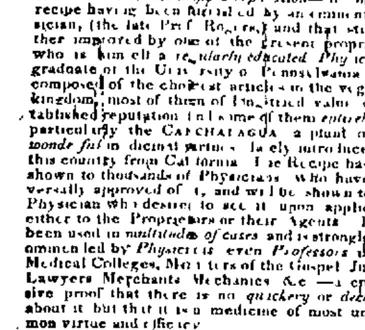
CONSUMPTION CURED!



CANCHALAGUA;
FOR THE COMPLETE CURE OF
Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints tending to
CONSUMPTION.
READ! READ!!

This medicine is not what is declared to be above. A remedy for the *complete cure* of all the affections of the Throat and Lungs [illegible]

[illegible]

PAMPHLETS.
As no ordinary size advertisement can begin to do justice to the merits of this article the Proprietors have embodied in a pamphlet form the history of this Medicine—the *description*, *nature*, &c of its principal ingredient—the *effect* they are designed to have upon the human system—and above all, the *incalculable amount of good* which it has done. They design to circulate this pamphlet extensively, but should any one be overlooked they are earnestly desired to call upon the Agents named below, and procure one *gratis*. The hints on page 7th may be worth to *yourself* or *family*, THOUSANDS OF DOLLARS and I will introduce you to a mass of testimony in its favor, which is perfectly irresistible.
Such being our confidence in its virtues we are willing to *rest it* on its merits in *every recent case*, (if used according to the directions) and will refund the money if not satisfied that he is not deriving benefit from it, by returning the bottle within 21 hours' time.
THE MONEY
will be refunded. ☞ See page 34 of the Pamphlet.
For sale wholesale and retail by A L SCOVILL & CO, Proprietors at their Principal Office No 65 Warren St, New York to whom all orders for the Medicine and letters relating to agencies should be addressed *post paid*.
☞ Be sure to ask for *Dr A. Rogers Syrup of* LIVERWORT TAR and CANCHALAGUA, and let no other be palmed on you.
Caution—None genuine unless there is on the buff wrapper a *note of hand* signed with a *Pen*, by A L SCOVILL & CO.

PUBLIC attention is invited to a new article of Patent Iron Railing manufactured exclusively by themselves, of Wire or Rod Iron of any desired size securely fastened in heavy wrought or cast iron posts.
This article is admirably adapted for enclosing cottages, cemeteries, public grounds, gardens, &c, for balconies, columns, cornice work, summer houses, arbors, arches, verandahs, window guards for banks, stores and all private dwellings, lattice work, grating for sky lights, tree boxes, &c, and in fact for all purposes where iron railing is required.
The comparative lightness, great strength and durability of the Wire Railing, the beauty of its varied ornamental designs, together with the extremely low price at which it is sold, are causing it to supersede the cast iron railing wherever their comparative merits have been tested. It is furnished ready for setting at prices varying from 35 cents to $2,50 per lineal foot.
For further information in relation to price, &c, please address LYMAN & [illegible], [illegible] Albany Block,
